Examiner respectfully submits Carpentier teaches an apparatus being responsive to control operation of a device according to one or more of the files (Page 19 line 32 - Page 20 line 3: Automatic behavior may be added to a descriptor file that performs certain actions when a descriptor file is used to retrieve files (one or more of the files) e.g. automatically send electronic mail or publish on web sites (control operation of a device)). Examiner respectfully submits sending electronic mail from users to other users or publishing web sites on web server are control operation of devices which are computers of the email users or host computer of web server.

Examiner respectfully submits Carpentier teaches file directory structure enabling the apparatus to operate as a web server (Carpentier teaches the descriptor file contains file directory structure can perform certain actions e.g. publication on web sites on Page 19 line 32 - Page 20 line 3. Therefore, enabling the apparatus to operate as a web server, which publishes those websites, is also taught by Carpentier because it is convenient for setting web server for those websites in the same device), thereby enabling remote access to control or change operation of the device (Page 40 lines 10-12: method embodiments of the present invention may execute over a network (remote access) such as the Internet in conjunction with a remote CPU (device)).

Examiner respectfully submits Lenz teaches the apparatus configured to receive files and updates thereto through a communication network, with files assembled in the file directory structure as claimed (Abstract: the clients (apparatus) are configured to receive configuration files from the server through a communication network and those configuration files are assembled and resided in the file directory on the server). Examiner respectfully submits the combination and motivation Carpentier and Lenz are proper.

Based on the above consideration, regarding Applicant's Remarks, the Applicant's arguments have been considered carefully, however, the rejections is maintained as set forth on the Final Action July 03, 2007.
